- **Comm 11: Purposive Communication** should be taken by our 2nd year students during their 1st year Midyear, but since we do not have Midyear classes last A.Y. 2020-2021, they still have not taken this subject.
- **Math 114a: Differential Equations** is a 5-unit Lecture course.
- Also, we would like to request to rename Mete 132n from "Synoptic Meteorology 2" to "Synoptic Meteorology II". This is for uniformity of all courses offered.
- All of these changes are in accordance with the official Course Checklist for the BS Meteorology program as shown in the attachment (This copy was the official registrar copy provided to us by Ms. Sacro – the BSMet course in-charge)
