Thru: **MARIA JULIET C. CENIZA, Ph.D.**

Vice President for Research, Extension & Innovation

Visayas State University

Dear **Dr. Tulin**,

Greetings!

Attached together with this letter is the request letter for my appointment as Project Staff (without compensation) from the research project "Landslide Investigations on Geohazards for Timely Advisories in the Philippines (LIGTAS)" of the School of Environmental Science and Management – University of the Philippines Los Baños from May 01 to December 31, 2022.

I have been working on Weather Radar applications in the research project and have attended the training on Disdrometer Analysis for Precipitation Drop Size Distribution last November 16, 2021, conducted by the National Central University, Taiwan. This undertaking will surely expand my capability as an early career researcher and will put VSU among the higher education institutes delving into atmospheric research.

To that effect, I would like to humbly request that I will be granted the opportunity to work in the research project and be awarded with an equivalent workload as deemed appropriate.

May this request merit your kind consideration and positive action. Thank you very much.

Very truly yours,

Noted by:

**CHARLINDO S. TORRION**

Faculty, DMet

**JANNET C. BENCURE, Ph.D.**

Dean, CET
