Thru: Dr. Beatriz S. Belonias
VP for Academic Affairs & Chair, VSFC-AS

Dear Dr. Tan;

The National Biotechnology Week with the theme "*Empowering Innovation for Sustainable Future with Biotechnology*" is scheduled on November 20-25, 2023 in Cebu City, Philippines. Along with this, the Department of Biotechnology of the VSU in partnership with CHED organized "*Biotechnology 101 for Educators and Students*" which aims to provide a comprehensive introduction to the field of biotechnology and how it can be harnessed for sustainable future to the next generation of innovators and educators.

In this regard, I was invited as one of the resource speakers with the topic "*Revolutionizing the Future of the Food Industry: Bacteriocin Production through Genetic Engineering*" on November 22, 2023 at Sky Hall SM Seaside Cebu City. This opportunity will also serve as an avenue to share the insights and perspectives in my field of specialization.

Attached herewith is the invitation and program of activities for the event.

Respectfully yours,

SARAH JEAN C. SUGANO
Instructor I

Noted:

MA. THERESA P. LORETO
Director, Advanced Research and Innovation Center
