PhilRootcrops Research and Training Center  
Visayas State University  
Baybay City, Leyte

Thru: **INISH CHRIS P. MESIAS**

Laboratory In-charge  
Microbe Culture and Food Fermentation Laboratory

Dear Sir:

Greetings!

This is to ask permission to allow my students in Molecular Toxicology Laboratory (InBt152) to conduct experiments in Microbe Culture and Food Fermentation Laboratory (FFL). They will conduct the following analysis as part of the exercises for the first semester 2022-2023:

1. HCN Analysis
2. Oxalate Analysis

I assure you that we will observe carefully the health protocols and laboratory policies during lab class.

Hoping for your positive response upon this request.

Thank you and God bless!

Respectfully yours,

**SARAH JEAN C. SUGANO**

Faculty, ARIC  
Instructor, InBt152 Lab Class

Recommending Approval:

**INISH CHRIS P. MESIAS**

Laboratory In-charge, FFL

Approved:

**MARLON M. TAMBIS**

Assistant Director, PhilRootcrops
