Dear Dr. Belonias:

Greetings!

Last October 2021, the Department of Physics has transferred to the Annex Building of the Old Library Building. In addition, we have occupied the Faculty Rooms including the Office and Staff Room which are occupied by two (2) faculty. Based on our knowledge, an internal arrangement between the former department head of the Department of Mathematics and Physics, Prof. Climaco D. Espina, Jr., and the former CAS Dean, Dr. Candelario L. Calibo, that the former CAS Dean can temporarily occupy the Office and Staff Room located at the Annex Building while the CAS Dean has no office yet. However, during his term, the said temporary office is not yet ready for occupancy, and he prefers to stay at DoPAC.

From the time that the Department of Physics transferred to the Annex Building, the said office is now occupied by two (2) of its faculty members. However, if VSU would like to use the Office and Staff Room as a CAS Dean's office, the Department of Physics is willing to vacate the room and look for a temporary office for the displaced faculty.

Table 1 shows the utilization of the rooms at the Old Library building and the 1st floor of the Annex Building.
