Internal Quality Auditor

Dear **Dr. Moreno**,

Good day!

We appeal for the Description of Nonconformity in the Nonconformity Report No. RERC-NC-22-01 which was received by the center regarding its uncalibrated pressure gauge. Based on PM-PPO-04 v0 02-28-2022, **it is not the responsibility of the center to calibrate** its pressure gauge. The center failed to present a calibration certificate of the said device but to state that the center **has failed to calibrate its installed pressure gauges on the hydraulic ram pump is inappropriate.**

We hope for appropriate correction on the description of our nonconformity.

Thank you and God Bless.

Kind regards,

ELDON P. DE PADUA
Head, RERC
