

11 July 2021

Dr. Edgardo E. Tulin
President
Visayas State University

Dear **Dr. Tulin**:

Greetings!

Due to the unforeseen and an equally important event where Mang Tani's expertise was highly needed, he was not able to conduct a talk during the Typhoon Awareness and Calamity Readiness Webinar (OP Memo Circular #71, s.2022) last June 29, 2022.

However, the management of GMA News has recently informed us that Mang Tani is available and could probably give a talk on July 22, 2022.

Since a lot of us are much very eager to hear a word about the topic on How important weather forecasting in calamity preparedness from Mang Tani. We are glad to inform you that we are conducting a second part of this webinar.

In this regard, we are seeking your approval and we are hoping for your full support.
Thank you.

Very truly yours,

CHARLIE S. ANDAN
Head, DMet
