STATE UNIVERSITY

INSTITUTE FOR  
**STRATEGIC RESEARCH AND  
DEVELOPMENT STUDIES**

14 June 2023

**DR. ANABELLA B. TULIN**

Dean, Office of the Graduate School  
Visayas State University  
Visca, Baybay City, Leyte

**Dear Dr. Tulin:**

I hope this email finds you in excellent health.

We would like to sincerely express our appreciation once again for sharing the opportunity of AEI-ASEM Summer School 2023 with us and for generously allocating one slot to MS DevSoc of VSU's funding support. We immediately shared this opportunity with our students, and we are thrilled to inform you that three of them have shown keen interest and strong commitment.

Having carefully reviewed their statements regarding their motivation to participate in the program and their aspirations for the summer school experience, we found that Ms. Elia Maury C. Jadina's essay stood out among the rest. She eloquently explained how the summer school can contribute to her professional growth and its potential impact in her workplace and immediate community. Therefore, it brings us great pleasure to recommend her to your office for consideration in receiving a funding grant to participate in the AEI-ASEM Summer School 2023.

Ms. Jadina is not only a dedicated teacher at Baybay City Senior High School but also serves as the Eco-friendly School Coordinator and an advisor to the Youth for Environment in School Organizations. We support Ms. Jadina's claim that the summer school experience will significantly enhance her abilities as a teacher, environmental advocate, and youth advisor at Baybay Senior High School. We firmly believe that this opportunity will not only benefit her fellow teachers, students, and the entire school community but also serve as an inspiration for the Department of Education (DepEd) to provide similar support to their teachers, following VSU's commendable example of supporting faculty, staff, and students in international learning exposure.

Once again, we extend our gratitude for your kind consideration and support. Enclosed is the application form of Ms. Jadina for your perusal. We eagerly await your response and remain at your disposal for any further information or assistance required.

Thank you and best regards,

**13. Tell us why you are interested in this program and what you hope to achieve by participating.**

I am expressing much interest in the program AEI-ASEM Summer School 2023 for I believe it would be a valuable experience and would serve great purpose on me not only as a graduate student of VSU. Considering that included in the experience is to assess the innovation and green technologies for sustainable practices that they have there as well as issues that serve as barriers to the achievement of social and sustainable development, these are factors or topics that I believe will serve as essential source of information and inspiration in spearheading activities or drafting innovations in my current workplace since I am the Eco-friendly School Coordinator and Youth for Environment in Schools Organization Adviser in our School.

It would be nice to showcase what we also do including our Filipino culture in general, and in turn to share all the learnings from the experience among my colleagues and far more importantly to my students and to the members of the environmental organization that I am handling in our school.
