

November 20, 2019

From: Nello D. Gorne
Project Leader

Subject: Conduct of training on "Agroecosystem Analysis and Soil Fertility Evaluation"

As part of capacitating the lowland rice farmers of Barangay Marcos, Pangasugan and Patag, Baybay City, Leyte participating in the project entitled "Season Long Promotion of VSU Low-Cost Rice Production Technology", a training on "Agroecosystem Analysis and Soil Fertility Evaluation" will be conducted on November 25, 2019 at the Conference Room of the Department of Agronomy, Visayas State University.

At the end of the training, the farmer participants will be able to acquire knowledge and skills in agroecosystem analysis, soil sampling and soil fertility evaluation.

Attached are the estimated budget and program of activities.
