Research, Extension, and Innovation

Dear **Dr. Tulin**:

In line with the celebration of the World Meteorological Organization (WMO) Day on March 23, 2022, the Project Weather and Atmospheric Information Services (Project WAIS) under the Department of Meteorology (DMet) will be spearheading the conduct of a webinar: #WeatherWiser: A New Normal ver2.0.

The said webinar will tackle topics in line with the WMO Day theme: **“Early Warning and Early Action. Hydrometeorological and Climate Information for Disaster Risk Reduction”** and is scheduled on March 31, 2022, 8:00 am to 12:00 noon. It is intended to further capacitate concerned professionals such as disaster risk reduction and mitigation professionals, and secondary school teachers handling Earth and Life Science courses.

In this connection, may we request monetary or in-kind assistance for the token of appreciation to be given to the resource persons. In support to this event, the Dept. of Meteorology will provide the leg work in organizing, identifying, and inviting the participants, and in assisting the guest speakers during the said event.

May this request merit your kind consideration.

Thank you.

Very truly yours,

RAYMOND JESS G. GOLIAT

Chair, Research, Development, Extension, and Innovation Committee
