

October 23, 2023

Prof. Rosa Ophelia D. Velarde
 Director for Research
 Office of the Vice President for Research, Extension and Innovation
 Visayas State University
 Visca, Baybay City, Leyte

Dear Prof. Velarde,

Good day!

Submitting herewith our consolidated comments and recommendations of the following proposals submitted to us for an en banc meeting with the TWG for Rice, Corn, Other Cereals and Legumes and presentations last Oct. 13 and 18, 2023, respectively.

Proponent	Research Proposal	Comments and Recommendation
Dr. Nello D. Gome	Adlay Production: A Climate Change Adaptation and Mitigation Strategy for Marginal Lands	For approval and implementation; previous comments in the proposal have already been revised.
Prof. Ed Allan L. Alcober	Heirloom Rice R and D	For approval and revision since the component studies identified and be partnered with other departments have to be completed.
De. Ulysses A. Cagasan	Improving the Seedling Quality and Productivity of Agronomic Crops Through Different Priming Techniques	For revision and improvement. Researcher has to conduct his own research study rather than just monitoring results from students; has to use latest references.

Thank you very much.

Respectfully yours,

Berta C. Ratilla
