Dear **President Tulin**:

It is our pleasure and opportunity to highly recommend **Dr. Ruth O. Escasinas** as an Adjunct Professor in the Department of Agronomy starting this first semester SY 2023 – 2024. She was once our mentor, one of the most effective professors in the department, and ranks among the best professors in the University.

Dr. Escasinas spearheaded the formulation and approval of our Ph. D. and Masteral Degree Programs, of which the aforementioned programs obtained an approved COPC from the Center of Higher Education Division (CHED) last June 2023. She supervised as an adviser to numerous BS, MS, and MagDev students most of them finished their degrees with credible thesis dissertations. Dr. Escasinas published numerous articles in-line with her research work as an expert in field crop physiology. Besides, her research expertise, she handled crop production undertakings as a member of renowned institutions; PhilRice, IRRI, etc. in establishing the National Cooperative Trial (NCT) in rice and other agronomic crops. She developed the syllabi on two of the subjects under the Ph. D. program particularly related to crop physiology which is needed for this upcoming semester.

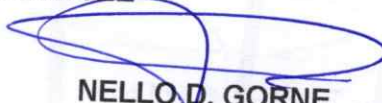

In this light, the pool of faculty in the department unanimously recommends her for the abovementioned position as an Adjunct Professor to support us in the overall offering of the Ph. D. program.

Thank you very much for your never-ending support, and God bless.

Very truly yours,
