

November 29, 2021

Dr. Edgardo E. Tulin
President
Visayas State University

Thru: Dr. Beatriz S. Belonias
Vice President for Academic Affairs and
Chairman, Academic Personnel Board

Dear Sir:

The DoPAC Personnel Committee (DPC) strongly endorses the renewal of appointments of the following **regular Faculty** of the Department of Pure and Applied Chemistry effective January 1, 2022 2nd Semester, AY 2021-2022.

Name	Degree	School where degree was completed	Field of Specialization	Position
Kevin Nick S. Bandibas	MS Chemistry candidate	University of San Carlos	Chemistry	Instructor I
Yssakhar A. Salas	MS in Chemistry Candidate	UP Los Baños	Chemistry	Instructor I
Atoz A. Vasquez	BS in Chemistry	VSU	Chemistry	Instructor I

Messrs. Bandibas, Salas and Vasquez are graduates of the Visayas State University and licensed chemists. Thus, they are highly qualified as chemistry instructors teaching professional, common and general chemistry courses. Messrs. Bandibas and Salas had just reinstated to work from study leave on the 1st semester AY 2021-2022. For the past semesters prior to their study leave, they got very satisfactory teaching performance evaluation from the supervisor, and students. The same results were obtained by Mr Vasquez for the past semester. Having shown outstanding traits of dependable and dedicated employees of VSU, they are great asset to the teaching force of the department.

Attached is the projected DoPAC Faculty Teaching Workload for the second semester, AY 2021-2022 for your reference.

May this endorsement merit your kind consideration. Thank you.
