Dr. Daniel Leslie M. Tan

Vice President for Administration and Finance
and Chair, VSU-Crisis Management Committee
VSU, Visca, City of Baybay, Leyte

Dear **Dr. Tan**,

I have just received your letter requesting for data on VSU's Ecological Profile especially on population and social services.

Such data can be accessed from the City Management Information System (CMIS) of Baybay, which is a collation of the Barangay Management Information System (BMIS) data of the 92 barangays.

We do not have a ready access to the CMIS database of Baybay as this is beyond our roles as implementer of the VSU-BIDANI Program. Data users shall write to Hon. Jose Carlos L. Cari, city mayor, to request for specific data.

We apologize for not being able to accommodate your request for data. Hopefully, in our future partnership with other LGUs, we can incorporate in the Memorandum of Agreement VSU's access to the partner LGUs' data for our research, development, and extension initiatives and undertakings.

Thank you and best regards.

Very truly yours,

LILIAN B. NUÑEZ
Director, ISRDS;
Program Leader, VSU-BIDANI
