Dr. Anabella Tulin
Dean, Office of the Graduate School
Visayas State University
Visca, Baybay City, Leyte

Dr. Tulin:

Greetings!

I am writing this letter to express the changes in my thesis outline originally titled as "Influence of Peer Review on the Anxiety Level and Competence in Writing of Grade 11 Senior High School Students at the Visayas State University". Due to some circumstances, I need to change the following aspects in my approved thesis outline:

1. Research Locale from Visayas State University to Baybay City Senior High School

I was employed at Baybay City Senior High School last June 2019. I want to do research where my workplace it is because this research may help my co-teachers in conceptualizing activities in the classroom.

2. From covering all strands to focusing only in HUMSS strand (with emphasis on students under Cluster 1 – Poblacion Area, Barangays Candadam, Sto. Rosario, Cogon, Can-ipa, and Gaas)

Baybay City Senior High School has more students compared to VSU Senior High School. In addition, students have limited movement due to the pandemic. Because of this, the researcher decided to limit the sample to the classes the cater students from Cluster 1. Also, it is justifiable to use HUMSS strand for one of the expected outcomes for the students in this strand is to become good writers. If the research will give us positive results, then teachers teaching writing classes in HUMSS strand may utilize the peer review technique to enhance students' writing skill.

4. Research title from "Influence of Peer Review on the Anxiety Level and Competence in Writing of Grade 11 Senior High School Students at the Visayas State University" to "Influence of Peer Review on the Anxiety Level and Competence in Writing of Grade 11 HUMSS Students at Baybay City Senior High School"

Because of the proposed changes above, the title will be changed as well.

I am hoping for your consideration.

Thank you very much and God bless!
