Dear Sir:

I will be turning 65 years old on October 31, 2022. In fact my retirement date which is October 31, 2022 is already approved by the Board of Trustees. However due to my health problems, I would like to amend my date of my retirement to **August 31, 2022**. Last April 1, 2022 I discovered I have a cyst in my right neck and results of my ultrasound showed there are nodules in my throat too. Currently I'm taking medication and during the summer break I'm planning to have an operation to remove the the cyst. Retiring in August also will be timely so that my replacement will start during the first semester and not in October, the original date of my retirement which is still the middle of the semester.

I would like to thank VSU for the many opportunities which allowed me to grow professionally, emotionally and even economically. I will always cherish the memories I have working in the university and the experiences I have with my students. I have spent most of my life here and I will be missing this place that has been my home for many years.

Again, thank you to all the officials of VSU, my colleagues at the Department of Economics and all my students for making my teaching experience worthwhile and colorful.

I will always be a Proud Viscan!

Very truly yours,

MA. SALOME B. BULAYOG
