

11 February 2022

DR. EVELYN B. AGUIRRE

President
Leyte Normal University
Tacloban City, Leyte

Dear Dr. Aguirre:

Greetings of safety and health this challenging times!

The College of Nursing of Visayas State University (VSU-CN) will be sending fourth year student nurses to hospital duty in non-CoViD areas of Divine Word Hospital (DWH) and Eastern Visayas Medical Center (EVMC) in Tacloban City from March to May of this year. This is to provide them with the best learning experience in the best hospitals in the region as their training as students comes to a close this second semester.

Most of these students come from areas far from Tacloban City, and it is the priority of the College to have them stay in a place where they are safest, and where learning is conducive as they work on their requirements during the course of their hospital rotation in the abovementioned hospitals.

With this, it is VSU-CN's humble request to have your reputable institution accommodate forty-one (41) Viscan student nurses, where seven (7) are males and thirty-four (34) are females, in one of the dormitories of Leyte Normal University (LNU) from March 20 to June 4, 2022. They will be subjected and will abide by the arrangements, rules and regulations provided for by LNU to all the occupants of its dormitories.

It is our ardent hope that this request be granted. You may reach our office through the email address nursing@vsu.edu.ph for any further information regarding this matter.
Thank you very much.

Respectfully yours,

JOEL REY U. JACOB, DNS
Dean
