

JUSTIFICATION

This is to justify the procurement of meals and snacks during the Training on Abaca Production, Pest and Disease Identification and Management and Postharvest Processing conducted by the National Abaca Research Center (NARC) on November 11-13, 2019. NARC's extension function is to increase the knowledge and skills of abaca farmers and Agricultural Extension Workers (AEWs) in abaca good agricultural practices through trainings. The Center's Integrated Abaca Extension Program is given an annual budget to conduct trainings and other extension activities. NARC shoulders the cost of training materials and participants' meals and snacks for the duration of the training as part of resource-sharing with LGUs and other agencies and organizations working for the improvement of the abaca industry of the Eastern Visayas.

JESSIE MILADEL N. SALOMON
 Program Leader, Integrated Abaca Extension Program
 NARC
