VSU EXTENSION QUARTERLY REPORT OF ACCOMPLISHMENT FORM (January – March 2024) First Quarter

Project Title: Training, Training, Technical Assistance, and Distribution of Agronomic Crops Planting Materials in Support of RDEI Programs of VSU and Other Agencies

I. Relevance to VSU & College's Thrust and Priorities:

- The project contributes substantially to the national and regional development targets through effective technology transfer, continuing training, and technical assistance, development of extension materials for the effective promotion and dissemination of extension services, and utilization of available resources for the dire need of a responsive community.
- This activity also supports the University's mission of delivering effective and efficient extension services to enhance crop productivity through the application of innovative technologies in agriculture to support combatting climate change.

II. Physical accomplishments within the quarter

A. Targets for the quarter

Component 1. Production and distribution of recommended certified rice, corn, legumes, and root crops planting materials

Component Leaders: Ed Allan L. Alcober, and Wences Rey De la Peña

Activities:

- Facilitate the production of quality planting materials through seed nets for rice, and other entities for other agronomic crops, and distribution of said quality planting materials to interested clientele or farmers.

Vision:
Mission:

A globally competitive university for science, technology, and environmental conservation.
Development of a highly competitive human resource, cutting-edge scientific knowledge and innovative technologies for sustainable communities and environment.
