Dear Sir,

We would like to endorse the updates of the graduate studies of **Ms. Loreme S. Cagande** at the University of the Philippines (UP), Los Baños, Laguna, Philippines. Ms. Cagande started to study at UP, Los Baños in the first semester of SY 2023-2024 with a good scholastic record.

Attached herewith are the activities and accomplishments of her study, the true copy of grades, and the official receipt and/or Form 5 indicating the subjects enrolled last first semester.

In this regard, I strongly recommend she continue her graduate studies leading to a Ph.D. degree in Agronomy at the UP, Los Baños, Laguna, Philippines due to her good scholastic performance. Besides, she regularly attended face-to-face classes in the three courses such as Agro240 (Environmental Physiology), Agro241 (Advanced Field Crop Physiology and Ecology), and Agro254 (Crop Evolution).

Thank you very much and more power.

Very truly yours,
