Semestral Report in the Implementation of Student Internship Program in the Philippines

Term: [] First Semester [X] Second Semester AY: 2022-2023

[] Mid Year : _____

Academic Unit: Department of Agronomy
Address: College of Agriculture and Food Science, Visayas State University, Visca, Baybay City, Leyte
Degree Program: Bachelor of Science in Agriculture (Agronomy)

ISSUES AND CONCERNS ENCOUNTERED	SOLUTIONS	RECOMMENDATIONS
<i>A. Planning</i>		
1. Availability of standard format of the student's report	Conducted a consultation meeting with the faculty to outline the format of the report	The department should refer to other internship reports from the other departments to come up with a holistic format.
2. Data to be taken by the students for their report	Conducted a consultation meeting with the faculty to agree on what data should be taken by the students.	Data to be gathered should be identified by the department concern ahead of time.
3. The time table for the internship program coincided with the conduct of the student's thesis.	Conducted a consultation with the Agricultural Training Institute-8 (ATI-8) regarding the identification of accessible and legit learning sites that are adjacent to the main campus. This scheme allows the graduating students with on-going experimental setup on their undergraduate thesis to visit, monitor and data gathering	Request CHED through the Vice President of Academic Affairs to conduct the internship program during summer of the third year instead of during the fourth year of schooling.

Vision: A globally competitive university for science, technology, and environmental conservation.

Mission: Development of a highly competitive human resource, cutting-edge scientific knowledge and innovative technologies for sustainable communities and environment.
