

VSU TERMINAL REPORT FOR RESEARCH AND DEVELOPMENT

A. Bibliographic Data

1. Study Title

Formulation of Home-mixed Pellet Ration as Dietary Supplement in Post-weaned Rabbits

2. Proponent (s)

Researchers:

Jerome O. Arribado

Study Leader

Jayson C. Arpoceple

Science Research Assistant

July 1, 2021 – February 28, 2024

Arjay M. Garrido

Science Research Assistant

March 1 – December 31, 2024

3. Address

Eco-Farm and Resource Management Institute (Eco-FARMI),
Visayas State University, Visca, Baybay City, Leyte

4. Implementing Agency

Eco-FARMI, VSU

5. Collaborating Agency

6. Project Duration

July 1, 2021 – December 31, 2024

7. Project Location

In-campus: Eco-Farm and Resource Management Institute
Demonstration Farm, Visayas State University, Visca, Baybay
City, Leyte

8. Project Funding

VSU – GAA

9. Total Approved Budget

PhP 692,337.28

10. Total Amount Utilized

PhP 573,657.08

11. Project Outputs

- Constructed housing and cages for the feeding trial of the rabbits
- Formulated home-mixed pellet ration as a dietary supplement for post-weaned rabbits
- Conducted one trial on the growth performance of post-weaned rabbits using the feed formulation
- Collected and analyzed data to differentiate the effects of formulated home-mixed pellet ration for post-weaned rabbits on the growth performance and *in vivo* digestibility trials
