Sir / Madam:

I would like to apply for readmission effective this second semester / summer 2021-2022. My last attendance from this University was second semester / summer 2020-2021. I was out of school for one(1) semester because of the following reason(s): lack of resources specifically the gadgets as well as a wifi which are the necessary things needed for online classes.

If admitted I promise and pledge to abide by and comply with all the rules and regulations laid down by competent authority in the University and in the College to which I am enrolled.

Dear Dr. Tulin:

Good day to you!

I am Jerome Pesado, a BSED English student at the Visayas State University. I enrolled at the Visayas State University last Academic year 2020-2021 and I was lucky enough to be able to survive during that year's first semester despite having the lack of resources needed for online classes. However, during that year's second semester, that's when the real struggle started because we don't have a wife at home so I need to go the nearest piso wifi in our barangay which is located in our barangay's plaza. But the internet connection in our place was very unstable that I can barely attend any of my classes. In addition to that, I also don't have my own cellular phone that time which is the most important thing that we, students need. I was only using my older sister's phone everytime I have a class, but that same year, my sister volunteered as an assistant teacher in our town Dulag, which is a bit far from our house so she had to stay in her friend's place for the whole duration of her being an assistant teacher and unfortunately she had to bring her phone with her. I was only able to borrow her phone every end of the week so I can no longer attend any of my classes that time. It was during the midterm exam when I decided to just stop because I knew to myself that I can no longer make it because I wasn't even able to finish even just half of my requirements. The reason why I was not able to file a leave of absence is because I honestly don't have any idea about it. Also, when I decided to quit school temporarily, I focused on finding myself a job so that I could provide the things that I needed the next time I enrol. Luckily, I did find a job and was able to do it.

I am writing this letter in the hopes that I could apply for readmission this academic year's second semester 2021-2022. If by chance, my application will be approved, I promise to do well in school and I promise to not quit until I graduate.
