

JUSTIFICATION

This is to justify the service provider 'Highland Coco' as the transport service of the vacuum fryer machine to DA-RFO 3 of Tarlac with the following reasons:

1. No other cargo can be used for transport due to the overall size and fit of the vacuum fryer machine including the pallet, and
2. the project is going to end this month (February 2022) and its distribution is included on the targets and accomplishments.
