

**PERMISSION REQUEST LETTER**

31 May 2022

**Dr. Edgardo E. Tulin**  
University President and Project Leader  
Tuklas-Lunas Development Centre  
Visayas State University

Dear **Dr. Edgardo E. Tulin**:

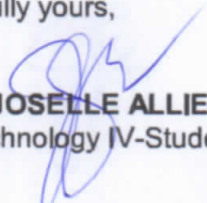

Greetings!

I am Jairah Joselle Allie S. Sarmiento, a fourth year Biotechnology student from the Department of Biotechnology of the Visayas State University. I will be conducting my thesis entitled entitled; "*16s Metagenomic Sequencing of Soil Microbial Diversity in Black Bamboo (Phyllostachys nigra) Rhizosphere Associated with Heavy-metal Resistance*". I am writing to respectfully ask your permission to allow to use the Model 300 V/T Ultrasonic Homogenizer™ and Biodrop 125™ of Tuklas Lunas Development Centre for my thesis.

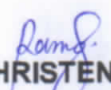

Your permission would be of great help for the completion of the study. I also promise to give due credit to you and the Tuklas Lunas Development Centre. Rest assured that I am being guided on my thesis adviser on the responsibilities while using the laboratory.

May this letter merit your kind consideration. Thank you.

Respectfully yours,

  
**JAIRAH JOSELLE ALLIE S. SARMIENTO**  
BS Biotechnology IV-Student
