Dr. Manuel D. Gacutan, Jr.
Head, Dept. of Animal Science
Visayas State University

Thru: Ms. Retchil B. Aragon
Laboratory Technician

Dear Dr. Gacutan,

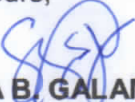

Greetings!

This semester, I am handling Btec 134 – Methods in Recombinant DNA Technology at the Dept. of Biotechnology. One of the laboratory exercises is to expose our students to the basic molecular laboratory requirements and show them the different research centers and laboratories doing biotechnological researches in Visayas State University.

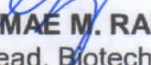

With this, I would like to request to visit the laboratory of your department and take a virtual tour or pictures particularly on lab equipment used for research or instruction for me to show them to my students virtually. If you already have a video tour or specific lab introduction, I would appreciate it if you can share it with me. Rest assured that I will give credit to the video and the footage information.

Thank you very much and looking forward for collaboration in the future.

Sincerely yours,

MARCIANA B. GALAMBAO
Asst. Professor III, Biotechnology
