

July 18, 2022

Marwen A. Castañeda
University Registrar
Visayas State University
Visca, Baybay City, Leyte

Dear Ms. Castañeda:

Greetings!

I, Dhenber Lusanta, the thesis adviser of Windy Anacleto, would humbly request to the Office of the Registrar, Visayas State University for the withdrawal of the enrolled Subject of my student, HORT200.2 with offering no. Q001.

The said student was enrolled to **HORT200.2 with an Offering No. Q097** on 2nd Semester S.Y. 2021-2022 and was conducting her undergraduate thesis entitled: **"Comparative Effects of Different Organic Amendments on the Growth and Yield of Cabbage (*Brassica Oleracea L. var. capitata*) Under Lowland Condition"** under my supervision. Despite of her efforts to finish her thesis as early as required by the department, the student has failed to prepare all necessary materials for the said study due to the unforeseen circumstances. The area was hit by Typhoon which created damage to the prepared experimental area which delayed the conduct of the experiment. Reasonably, the student enrolled again for HORT200.2 on Summer Class S.Y. 2021-2022 (with enrolment deadline: July 06, 2022) with the hope to finish her thesis.

The Visayas State University, however, had extended the deadline of the graduation requirements that made it possible for the student to complete her experiment. Through hardwork and perseverance, the student was able to cope and complete her thesis and was able to submit her approved manuscript prior to the extended deadline, which is July 18, 2022 12:00 noon.

Thus, the enrolled subject for Summer Class is already not necessary. With this, would like to request for the withdrawal of HORT200.2 with offering no. Q001 enrolled under the name of Windy Anacleto.

Requested By:

DHENBER C. LUSANTA
Thesis Adviser, Instructor III

Noted by:

ROSARIO A. SALAS
Department Head

Approved by:

MARWEN A. CASTAÑEDA
University Registrar

Vision:
Mission:

A globally competitive university for science, technology, and environmental conservation.
Development of a highly competitive human resource, cutting-edge scientific knowledge and innovative technologies for sustainable communities and environment.
