**DR. ANATOLIO N. POLINAR**

Head  
Department of Forestry  
Visayas State University  
Visca, Baybay City, Leyte

Dear Dr. Polinar,

We hope that this letter finds you well. The Department of Agronomy currently has an ongoing project entitled **OneRicePH: "Accelerating Genetic Gain for Improved Productivity and Nutrition for Priority Market Segments (2024)."** This is an IRRI-VSU collaborative project, and we are now preparing for stage 2 trials for this wet season.

In this regard, we are requesting your office to allow us to cut bamboo for free, at least five (5) pieces near the farmhouse of the Department of Agronomy. The said bamboo will be used in our project during layouting and for sticking the 888 plots. Your support will not only help us achieve our goals but also contribute to the overall success of the OneRicePH Project by showcasing the importance of sustainable agriculture practices.

Thank you very much and more power to all of you.

Respectfully yours,

**DIONÉSIO M. BAÑOC**  
Project Leader

**ED ALLAN L. ALCOBER**  
Study Leader
