Reason(s) for Changing:

The reason why I would like to shift is that I find computer science a bit too tough. I am having hard time adjusting my academics since computer science consume a lot of time to analyze and understand a topic. It is true that I like computer science as my first choice of degree since I have knowledge about computers that is why I decided to take up the course. However, now that I am pursuing the course I have discovered the degree level of computer science is not all that easy. Also, another reason is my parents worry about my health when I started having tension headaches and slightly blurred vision due to the computer radiation. I believe that a tourism course will provides a better opportunities for me.
