Thru: **DR. DENNIS P. PEQUE**

Chairman, Tree Conservation and Management Committee

Dear *President Tulin*,

A small patch of landslide happened at the road going to the Olympic-size swimming pool due to Typhoon *Agaton* on April 10, 2022. Two planted trees (bagtikan and ansohan) and one existing (molave) has been toppled down due to the movement of the earth. These temporarily blocked the road and need to be removed.

In this connection, I am requesting the committee to allow us to cut the trees in order to clear and open the road to the public. Likewise, the lumber will be used as materials for the construction of tables and chairs for the Biodiversity Center. I hope for your favorable action on this request. Thank you very much for your continued support on the development and completion of the Biodiversity Center.

Very truly yours,

MARLITO M. BANDE

Officer-in-Charge
Biodiversity Center
