Dr. Antonio P. Abamo
Director for Extension
Visayas State University

Thru: Dr. Victor B. Asio
Dean, CAFS
Visayas State University

Dear **Dr. Abamo**:

Happy new year!

We would like to modify our existing Extension Project of the Department with the new title " DSS Soil Health Services Program (DSOHeSeP) and submit to your office for possible funding. In this modified program, we are planning to expand our services not only in the farmers of Baybay but as well as the sugarcane growers in Ormoc-Kanangga areas. They have been our partners in the recently completed collaboration funded by the Sugar Regulatory Administration and we wanted to continue our services with them to maintain the VSU-private entity tie-up. Attached please find revised/modified extension project of the department.

Thank you very much for your continued support.

Sincerely,

SUZETTE B. LINA
Head, DSS

Endorsed by:

VICTOR B. ASIO
Dean, CAFS
