**RECOMMENDATION FOR CHANGE OF EMPLOYMENT STATUS OF MS. MARY CRIS F.
PLE ÑOS FROM TEMPORARY TO PERMANENT**

Dear Dr. Tulin:

We would like to strongly recommend for the change of employment status of **Ms. Mary Cris F. Pleños**, Instructor I, from Temporary to Permanent. She formally started working at the university specifically at NARC on June 16, 2019. Her undergraduate degree is BS in Statistics obtained in April 2016 and her MS in Agricultural Economics was obtained in June 14, 2019.

For two years and 9 months at NARC, Ms Pleños shows hardwork, discipline, and good working relationship to colleagues. She crafted research proposals for possible funding and acted as study and co-study leader in abaca research and extension projects. She is also an affiliate faculty at the Department of Statistics and Department of Economics teaching Statistics and Economics subjects, respectively.

Her active attendance in local, national, and international conferences as paper presenter or resource person, winning some best paper awards, and publishing research paper in international journals had significantly contributed to the Center's Annual Accomplishments. As a research center, we value the competencies of Ms Pleños and we are confident that with her knowledge, skills, commitment, and attitude, she will contribute more to our RDEI goals.

Hoping for your positive response on this recommendation. Thank you very much.

Respectfully,

ROBELYNT. PIAMONTE
Director, NARC and
Chairman, NARC Personnel Board
