

OUTCOMES-BASED EDUCATION (OBE) COURSE SYLLABUS

**NCON 143
WELFARE ECONOMICS**

Quality Goals of the Faculty of Management and Economics

1. Produce graduates in management and economics with advanced analytical, critical thinking and communication skills while fostering ethical leadership and professional integrity to meet the demands of a globalized and sustainable economy.
2. Conduct cutting-edge, transdisciplinary research and implement extension and innovative programs that address pressing social, ecological and economic development challenges in the agribusiness, tourism and hospitality sectors.
3. Forge and sustain strategic partnerships and networks with local and international institutions to enhance the quality of academic programs, research endeavors, and extension services, contributing to societal transformation.
4. Foster an academic environment at par with global standards, that promotes lifelong learning, resilience, excellence, and empower graduates to become progressive leaders in the agribusiness, economics, entrepreneurship, hospitality and tourism fields.

Quality Objectives of the Department of Economics

1. Produce highly skilled economic graduates specializing in business, the environment and agriculture to efficiently satisfy the community's developmental and sustainability needs.
2. Conduct leaning-edge economic analysis and evaluation of diverse technologies, programs and projects to improve agro-industrial technology transfer for sustainable economic development.
3. Advocate for policies that address pressing socioeconomic problems and promote sustainable income-generating projects.
4. Enhance human resources to efficiently deliver instructions, research, extension, innovation, and income generation through engagement with economics alumni and partner institutions.
