

VSU EXTENSION QUARTERLY REPORT OF ACCOMPLISHMENT FORM
(January – March 2023) First Quarter

Project Title: Training, Technical Assistance, and Distribution of Agronomic Crops Planting Materials in Support to RDE Programs of VSU and Other Agencies

I. Program/Project Objectives:

- Facilitate the production of agronomic crops to produce quality planting materials for distribution to the intended clients; farmers, students, and other stakeholders.
- Enhance the delivery of effective and efficient extension services through appropriate training and technical assistance to LGU technicians, farmers, and other responsive stakeholders.
- Development of information extension materials for the effective promotion and dissemination of VSU production practices of selected agronomic crops.

II. Relevance to VSU & College's Thrust and Priorities:

- The project contributes substantially to the national and regional development targets through effective technology transfer, continuing training, and technical assistance, development of extension materials for the effective promotion and dissemination of extension services, and utilization of available resources for the dire need of a responsive community.
- This activity also supports the University's mission of delivering effective and efficient extension services to enhance crop productivity through the application of innovative technologies in agriculture to support combatting climate change.

III. Physical accomplishments within the quarter

A. Targets for the quarter

VSU EXTENSION QUARTERLY REPORT OF ACCOMPLISHMENT FORM (April – June 2023) 2nd Quarter

Project Title: Training, Technical Assistance, and Distribution of Agronomic Crops Planting Materials in Support to RDE Programs of VSU and Other Agencies

I. Program/Project Objectives:

- Facilitate the production of agronomic crops to produce quality planting materials for distribution to the intended clients; farmers, students, and other stakeholders.
- Enhance the delivery of effective and efficient extension services through appropriate training and technical assistance to LGU technicians, farmers, and other responsive stakeholders.
- Development of information extension materials for the effective promotion and dissemination of VSU production practices of selected agronomic crops.

II. Physical accomplishments within the 2nd quarter

A. Targets for the quarter

Component 1:

The established rice and corn production undertakings within the production areas of the Department of Agronomy, Visayas State University (VSU) were maintained adopting the best cultural management practices. The rice and corn crops experienced reproductive and ripening growth phases during this period. Then, harvesting was done in May and June 2023.

Component 2:

Conduct rice production management training, and validation & finalization of outputs of the conducted transect survey in the entire area of the City of Baybay. Another training was aligned in Albuera, Leyte as per request by the active Municipal Mayor and the Municipal Agriculturist.
