Dear Sir:

Greetings!

We would like to relay that a number of international students together with our Australian research partners will come to VSU on June 7 until June 29, 2023 in preparation for the various field activities in the next few months. The said students would like to visit research centers and other offices on June 8, 2023 in the campus that interest them. The VSU International Office has agreed to guide them during that day. In addition, we would like to request to have a lunch (and courtesy meeting) with you on June 9, 2023 at the guest house. I am sure they will be delighted to see you in person and hear your warm welcome.

Hoping for your favorable consideration on this matter.

Thank you very much.

Sincerely,

  
ARTURO E. PASA  
Project Coordinator
