Dear Attorney, Guinocor:

This is connection to our research project collaboration with the Australian Center for International Agriculture Research (ACIAR) of Canberra, Australia, entitled "*Agribusiness-led Inclusive Value Chain Development for Smallholder Vegetable Farming Systems in Selected Areas in the Philippines*" Sometime in the 3rd week of November last year we submitted a draft Sub-Contract Agreement for you legal opinion prior to the final signature of the VSU President. In your reply to that letter request we had, you mentioned that the said contract was legally in order for VSU except that it should be formatted or presented like a MOA in content by specifying the responsibilities of each party (Collaborator).

We are re-submitting therefore a signature-ready version of the *Subcontract Agreement* with some revisions regarding the presentation of the specified responsibilities of each party.

Looking forward for your favorable action on this request.

Thank you for your generous time.

Respectfully,

ANTONIO P. ABAMO, Ph.D.
