

2 March 2022

**DR. EDGARDO E. TULIN**

University President

Visayas State University

Baybay City, Leyte

Thru: **DR. ANA MARQUIZA M. QUILICOT**

Head, International Affairs Office

Dear **Dr. Tulin**:

We would like to inform your good office that Mr. Vincent Neveu, a Bachelor student at the Forestry Division of Bern University of Applied Science-School of Agricultural, Forestry and Food Science (BFH-HAFL), Switzerland, will be conducting his thesis on the "Analysis of *Falcataria moluccana* and *Acacia mangium* according to their quantity, quality and distribution in terms of wood and tannin production potential on the island of Leyte" from March 28 to April 28, 2022. The thesis research that Mr. Neveu will be conducting is part of our Swiss-funded Pinoy Tannin Project of which VSU is a partner University.

Mr. Neveu will be arriving in Baybay, Leyte on a tourist visa. We have originally planned that he will stay in one of the private boarding houses outside the campus. But due to security reason, we would like to request that Mr. Neveu will be accommodated at the VSU Appartell from March 28 to April 28, 2022, charged to our VSU Pinoy Tannin Project.

Thank you very much for your kind approval.

Very truly yours,

  
**Victor B. Asio**

Project Leader,

Swiss-Pinoy Tannin Project-VSU Component
