

QUARTERLY RESEARCH PROGRESS REPORT

QUARTER: (3rd)

Research Title: Colonial Urban Planning: The Retreat and Return Cycle of Coastal Slums Dwellers in the Philippines

I. Study Objectives:

- Understand the socio-political and historical context of climate change responses from different stakeholders;
- Identify the resilient approaches of different stakeholders in response to climate change; and
- Understand the heterogeneity of local ways of being and co-existing in relation to the natural environment.

II. Relevance to VSU & College's Thrust and Priorities:

This research aims to contribute to VSU and CME's commitment to conduct research and development projects that address the needs and challenges of society in development studies that could advance social and environmental sustainability.

III. Highlights of accomplishments within the quarter

A. Targets for the quarter

- Identify location of flooded areas in Ormoc.
- Conduct secondary data collection and literature review.

B. Highlights of accomplishments

- Coordinated with the Ormoc City Environmental Resources Office and City Planning Office to access their data to locate the coastal barangays and assess possible flooding-related risks.
- Production of a map locating the Ormoc City coastal barangays.
- Possible research opportunities related to the study were introduced to undergraduate and graduate students. One undergraduate student is conducting a thesis study on flood simulation of selected coastal barangays in Ormoc.
- Significant literature was conducted emphasizing the role of urban planning in climate-related risk management.

IV. Physical Report of Operation

A. Research Program

	Particulars/Name and Brief Description of Utilized/ Commercialized Technologies	Number
Outcome Indicator		
1. Number of research outputs utilized by the industry or by other beneficiaries	Not Applicable Yet. The project started in July 2023.	
Output Indicator		
1. Number of research outputs completed within the year	Not Applicable Yet. The project started in July 2023.	
2. Percentage of research outputs published in internationally referred or CHED recognized journal within the year	Not Applicable Yet. The project started in July 2023.	

B. Technologies/Information patented and commercialized

Technology Invention(s) New Information	Invention Patent Number	Date of Issue	Utilization of Invention		Name of Commercial Product
			Development	Service	
A. Technology Invention(s)	Not Applicable Yet. The project started in July 2023.				
B. New Information	Not Applicable Yet. The project started in July 2023.				

C. Research papers published (Identify if articles were for Research, Extension, Innovation or MSc/ PhD Studies)

	Title	Author (s)	Date/Year/Publication/ Publisher	Remarks (if Research, Extension, Innovation, Thesis, MSc/PhD)
a. Refereed Journal				
Institutional	-			
National	-			
International	-			
b. Semi-popular publ'n (newsletter, etc.)				
c. Popularized pub'ln (technoguides, etc.)	-			
d. Book Chapter/s	-			
e. Books	-			

D. Citation

Research Output as Cited by Other Researcher(s) in Journal Activities									
Title of Research Output/ Published Journal Articles/ Book	Title of Journal & Vol. Issue/ Year	Keywords	Researcher (s)	Citation Details					
				Author(s) Who Cited the Research Output	Title of Article Where the Research Output Was Cited	Title of Journal	Vol. / Issue / Page No.	City/ Year Published	Publisher
-									
-									

V. Issues, Problems, and Recommendations

- The request for the laptop that will be utilized for the mapping activity takes longer, resulting in the difficulty of producing desired maps for the study.
- There is no funding granted for a research assistant. Thus, the targeted outputs identified in the proposal, such as the conduct of interviews in the identified flooded coastal areas, which is relevant to the analysis of the study, cannot be carried out by the study leader alone.
