DEEJAY M. LUMANAO, Ph.D.

Head, Department of Soil Science
VSU Main Campus

Dear **Dr. Lumanao**,

I hope this message finds you well. I wanted to reach out to you regarding a concern that has been raised by some faculty members in the Department of Agronomy. We've noticed that there are several cats surrounding our building, DA and DSS.

We appreciate their presence, feeding them inside the building has raised some concerns. We're worried that it might pose health risks to our students and employees, and also create an uncomfortable work environment.

We also often receive visitors, and we're proud to showcase our departments. However, the smell of cat food can be unpleasant and make it difficult for us to accommodate guests.

We would greatly appreciate your attention to this matter, and we're confident that with your help, we can find a solution that works for everyone.

Thank you for your understanding and support.

Sincerely,

LUZ G. ASIO, Ph.D.
Head, Department of Agronomy
