

## EXTENSION QUARTERLY ACCOMPLISHMENT REPORT FORM

**Program/Project Title:** Agro-enterprise Clustering Approach (AECA) for Inclusive Vegetable Production and Marketing

**Program/Project Leader:** Marejen A. Villaremo

**Budget and Funding Source:** Jollibee Group Foundation Inc.

### I. Objectives:

- a. To form at least one active cluster of smallholder farmers for collective vegetable production and marketing; and
- b. To help smallholder clusters of farmers establish and sustain linkages to institutional buyers

### II. Short SDG Statement:

The Agro-enterprise Clustering Approach (AECA) for Inclusive Vegetable Production and Marketing extension project contributes to the achievement of several United Nations Sustainable Development Goals (SDGs). Primarily, the project supports SDG 1: No Poverty through increasing the income of the project-clustered farmers by the introduction of a collective agro-enterprise development and improved market access. It also aligns with SDG 2: Zero Hunger because the project enhances sustainable agricultural practices, increases vegetable production, and improves food security in rural communities.

In addition, this project advances SDG 8: Decent Work and Economic Growth through inclusive and sustainable agro-based enterprises that generate livelihood opportunities for the beneficiaries, promote entrepreneurship, and strengthen local economies. It also contributes to SDG 12: Responsible Consumption and Production through efficient resource use, reducing postharvest losses, and promoting environmentally sound farming practices.
