Sir / Madam:

I would like to apply for readmission effective **Second** semester 2021 -2022. My last attendance from this University was the **first semester** 2020 -2021. I was out of school for **two** semesters because of the following reason(s): I lost my motivation to continue my studies due to the pandemic. I find it hard to cope with the new normal setup of education. It was hard for me knowing that I am the eldest of the family and I have to take care of my sibling because my mother is working abroad in order for us to live.

If admitted I promise and pledge to abide by and comply with all the rules and regulations laid down by competent authority in the University and in the College to which I am enrolled.

Dear Dr. Tulin:

Good day to you!

I'm Xyrl Del Rosario a student of food technology department writing letter to ask an readmission for this semester of school year 2021-2022. During the first semester of school year 2020-2021 the new normal setup, was too hard for everyone a lot of trails and circumstances happened unexpectedly. I find it hard to adopt the distance learning in this new normal set-up. It was emotionally challenging and mentally draining. I was not able to cope up the challenges of the online class setup and how it incorporates with the problems in our home. I was the only one taking care of my three siblings since I am the oldest of the four. My mother is in abroad working to sustain us in our daily needs and to gave us a better future. I don't really know what to prioritize first between my studies or my responsibility. The reason for that, I suffered a lot mentally. I get metal health problems such as it affects my energy level, concentration, dependability, optimism. To the point that associated with lowering of my grades and co-occurring depression.

During the second semester of the school year 2020-2021 and first semester of the school year 2021-2022 I decided not to enroll to give myself a break from all of sufferings I got. Because I said to myself "How can I finish my degree if I am mentally unstable". This decision I made was supported by my parent and that's the reason why I push through it. In addition, I would like to ask an apology on not passing the Leave of absence because I was not able to know that it is a requirement when the student decided not to enroll on the next semester.

Today, I am now fully decided to re-enroll in the second semester of the school year 2021-2022 . I am now more stable ready to face the challenges of the new normal setup of learning. I have to admit that my break was really helpful in a sense that it makes me realize the importance of life, career and self-development. It helps me realize that I can't run away from challenges but rather face it. And now one step of facing this challenge is to enroll again to get the degree that I long for and dreamed of.

Thank you so much for your kind consideration regarding this matter and I am looking forward for the positive reply.

Respectfully yours,
