### B. Monitoring Remarks

This is the second monitoring for this virtual classroom. Supposedly, the 2nd monitoring was scheduled to be conducted on the 3rd week of December but was postponed due to electricity and internet connectivity issues. As per the logs, students were accessing this VC until December 16, 2021, which was the time when TS Odette hits Leyte that caused VSUEE to go down. The VC was visibly improved since it was last monitored last December 2, 2021. More learning materials like PowerPoint presentations and video links were uploaded by the instructor.
