

VIRTUAL CLASSROOM (VC) MONITORING REPORT

Date	2 December 2021
Department	Department of Meteorology
College	College of Engineering and Technology
Campus	Main Campus

Course Information

Course Category	Professional Courses
Degree Program	BS Meteorology
Major	N/A
Course Code	EC 132
Course Title	Descriptive Oceanography
Semester	1st Semester
Academic Year	2021-2022
No. of Virtual Classrooms	1

Faculty		
VC Title	Offering Number/s	Last Name First Name
EC 132 – Descriptive Oceanography	A212	Goliat Raymond Jess

A. Attachments

- Faculty access logs
- Monitoring reports
- Other attachments

B. Monitoring Remarks

This is the 2nd monitoring for this Virtual Classroom and both the faculty and the students (majority of them) are still actively accessing this VC as indicated by their recent logs. More instructional materials (ppts and videos) are added since the VC was first monitored last Nov. 16, 2021. Yet, as the semester is about to end in 2 weeks from now, it seems like the topics being covered in this course are only halfway compared to the topics stated in the OBE Syllabus. Nevertheless, this is still acceptable knowing that this is a new course offering by the department. The OBE syllabus, therefore, could be revised later knowing that the indicated topics cannot be totally covered within 1 semester.

Monitored by:

Daniel C. Lor
Head, Department of Meteorology
Date: 02/12/2021

Vision: Mission:

A globally competitive university for science, technology, and environmental conservation.
Development of a highly competitive human resource, cutting-edge scientific knowledge and innovative technologies for sustainable communities and environment.
