

VISAYAS STATE UNIVERSITY

2022 ANNUAL REPORT

CORE VALUES

RELEVANCE, INTEGRITY, TRUTH, EXCELLENCE

GOALS AND OBJECTIVES

WORLD-CLASS EDUCATION

Visayas State University (VSU) will be recognized as one of the premier universities in Asia, offering affordable world-class education to produce highly competent manpower in science and technology (S&T), especially for agriculture, environmental management and industries.

GLOBALLY COMPETITIVE S&T

Research is the engine of innovation. Technologies and information generated by research improve the socio-economic status and build the resilience of vulnerable groups.

EMPOWERED COMMUNITIES

The instruction and research programs of VSU contribute to social progress, but it is through its extension programs that the university brings about direct and immediate effect on society. In the next 10 years, VSU will strengthen its community engagement for community empowerment.

SUSTAINABLE RESOURCE GENERATION

The university is endowed with vast natural resources and pool of experts vital for creating income generating projects that will help augment the resources provided by government. The challenge is to strike a balance between continuing the pursuit of excellence while maintaining environmental conditions that will support present and future generations.

CLIENT-CENTERED GOVERNANCE

More exciting opportunities in exchange of information in science and technology come in positioning VSU in the arena of ASEAN integration. We embrace the responsibility as a research university to build up experts engaged in effectively serving our clients – parents, students, farmers, entrepreneurs, policy makers and technologists by making our science and technological products more accessible.

VERSATILE SPACES FOR INNOVATION

Spaces are important for innovation. We would like to build upon the lessons of VSU's visionary leaders: versatile spaces are conducive for deliberate and serendipitous encounters where great ideas brew and flow.

STRONG ALUMNI ENGAGEMENT

VSU alumni are college graduates of BNAS, VAC, ViSCA, and VSU as well as secondary school graduates of ERHS, VLHS, and VSULHS, all organized into the VSU Alumni Association. Students who did not finish their college education at VSU will be considered associate members if they desire to apply as such.

The background of the slide features a large, faint watermark of the Visayas State University logo, which is a circular emblem containing a sun, a gear, and a book, surrounded by the university's name in a circular border.

VISAYAS STATE UNIVERSITY

QUALITY POLICY STATEMENT

The Visayas State University (VSU), a globally competitive university for science, technology, and environmental conservation, is created by law to develop highly competitive human resource, cutting- edge scientific knowledge and innovative technologies for sustainable communities and environment.

Towards this end, we, at the Visayas State University, commit to:

- Produce highly competent, quality and world-class manpower in science and technology, especially for agriculture, environmental management and industry who are proficient in communication skills, critical thinking and analytical abilities;
- Generate and disseminate relevant knowledge and technologies that lead to improved productivity, profitability and sustainability in agriculture, environment and industry; and
- Satisfy the needs and applicable requirements of the industry, the community and government sectors who are in need of quality graduates and technology ready for commercialization through the establishment, operation, maintenance and continual improvement of a Quality Management System (QMS) which is aligned with the requirements of ISO 9001:2015.

It shall be the policy of the university that the quality policies and procedures are communicated to and understood by all faculty, staff, students and other stakeholders and that the system be continually improved for its relevance and stakeholders.

HIS EXCELLENCY FERDINAND ROMUALDEZ MARCOS JR.

President of the Republic of the Philippines
Macañang Palace, Manila

THROUGH:

J. PROSPERO E. DE VERA III, DPA

Chairperson, Commission on Higher Education
Chairperson, VSU Board of Regents

Dear **President Marcos:**

Greetings from the VSU community

I hereby submit to your good office the 2022 Annual Report of the Visayas State University which encapsulates all our humble accomplishments for the past year. This report is anchored on our three major thrusts of Instruction, Research and Extension. We've also included special sections on general administration, events collaboration and publications, and most importantly our COVID-19 initiatives to highlight some other equally relevant accomplishments of the university during the said year.

We at VSU are very much thankful to the wholehearted support of your administration has extended to our dear university. We will aspire to work better in the years to come to be the true to our mandate and push forward the national development goals and objectives of the Philippine Government

Mabuhay at maraming salamat po!

Very truly yours,

EDGARDO E. TULIN, Ph. D.

foreword

Despite the threat of the pandemic, 2022 is the year that VSU endured and survived many challenges because of our responsive implementation of flexible learning and our commitment to adjust our operational systems to match it with the prevailing needs of the times.

Future-proofing the university was the key in our collective success that allowed us to effectively navigate through the ambiguities of new normal education.

And we're grateful that we've not only endured these challenges but we also came out very successful with international ranking systems like the University Performance Metrics (UPM) rating us as the lone Four Stars Research University here in the Philippines. On top of that, we've also fared very well in other ranking systems conducted by UniRank, EduRank and the Webometrics.

Also, an emerging innovation think tank called IRIS also placed the university as rank 12 in science and engineering while rank 15 in health. These are proofs of our increasing popularity in the national arena as we fulfill VSU's vision of becoming a globally competitive university for science, technology and environmental conservation.

Of course, how can we forget our topnotchers who brought honor to VSU this year. We are all proud because in our flagship program, we've produced Tops 1, 2 and 7 in the November 2022 Licensure Examination for Agriculturists (LEA). We also have a 4th placer in the February 2022 Veterinary Licensure Examination (VLE), another 4th placer in geodetic engineering boards, and 6th placer in the September 2022 licensure exam for agricultural and biosystems engineers.

Our faculty members were also recipients of the 2022 Regional Pag-asa Award of the Civil Service Commission (CSC) that recognized the proactive response of our university in curbing the impacts of the COVID-19 pandemic. There are also other awards obtained by our faculty for this year even if they too had a hard time adjusting to the new normal education setup.

Our 2022 Annual Report is basically about our collective endurance as an institution to excel no matter how difficult the times are. And I'm proud that this experience brought to us lifelong learning that will be vital in paving the way for a better and more productive future for our beloved university.

May this report inspire us to achieve greater things for VSU so that we can serve our constituents more in the many years to come.

DR. EDGARDO E. TULIN
University President

69TH COMMENCEMENT EXERCISES

HIGHLIGHTS OF THE YEAR

Annual Report 2022
VISAYAS STATE UNIVERSITY

#ProudViscan topnotcher sets new record in mechanical engineering

Engr. Mark Anthony S. Arcayan did not only ace the February 2022 Mechanical Engineering Licensure Examination (MELE) but more than that, he also broke records by obtaining the highest rating in the history of this board exam.

This #ProudViscan finished the MELE with a whopping 96.60% rating, a feat that has never been achieved before.

Engr. Arcayan's overall rating was computed from the three parts of the exam which include: (1) Industrial and Power Plant Engineering where he obtained a staggering 100% rating; (2) Mathematics, Engineering Economics and Basic Engineering Sciences where he got 98%; and Machine Design, Materials and Shop Practice in which he earned 91%.

In this same exam, the Visayas State University (VSU) system produced a total of 13 new mechanical engineers, 7 were from the flagship campus in Baybay City while 6 were from the component campus in Isabel, Leyte.

VSU is Top 1 nursing school in the country, Viscan lands 8th spot in NLE

The Visayas State University has just been named the Top 1 performing school in the recently concluded November 2022 Nursing Licensure Examination (NLE) for obtaining a 100% passing percentage with fifty (50) total examinees.

This is the biggest number of NLE takers produced by the VSU College of Nursing (CoN) since its establishment in 2007. This college is also proud to maintain a 100% passing percentage streak for 8 years now since 2015.

On top of that impressive passing performance, VSU also gets its first board topnotcher in the Bachelor of Science in Nursing (BSN) program with Althea Grace C. Mosende obtaining the 8th spot in this board examination.

This recent achievement of VSU-CoN makes them the undisputed best nursing school in the region with a consistent 100% passing percentage since 2015 and a multi-awarded set of faculty researchers who were named as the two of the best health researchers in Eastern Visayas.

VISAYAS STATE UNIVERSITY

Top 1 Performing SUC

With the Highest Number of Level IV Accredited Programs in 2021
(29 Programs)

VSU named top 1 performing SUC for 2021; 29 programs now Level IV accredited

Visayas State University (VSU) has just been awarded as the Top 1 Performing State University by the Accrediting Agency of Chartered Colleges and Universities in the Philippines (AACUP) with 29 programs of the VSU Main Campus obtaining a Level IV accreditation status for year 2021.

Level IV is the highest accreditation accorded to a degree program based on the guidelines of AACUP. The degree programs that were awarded with this status include 9 undergraduate degree programs and 20 master's degree offerings of the VSU Main Campus.

VSU President Edgardo E. Tulin personally received this recognition during the 35th AACUP Annual National Conference held on March 11, 2022 at Clark Marriott Hotel in Pampanga.

VSU is first Level IV institution in Visayas

The Visayas State University sets another record in the history of the Accrediting Agency for Chartered Colleges and Universities of the Philippines (AACUP) by being the first university in both Visayas and Mindanao to obtain the highest institutional status accorded by the country's biggest accreditation body for state universities and colleges (SUCs).

Presently, only two other universities were already granted Level IV status with Tarlac State University (TSU) and Pangasinan State University (PSU) completing their institutional accreditations early this year.

While the official scores have yet to be released, VSU's overall performance was said to be a record-breaker with almost all areas evaluated getting near perfect scores.

VISAYAS STATE UNIVERSITY

AACCUP accredited and Mindanao

The Board of Trustees (BOT) of AACCUP approved the Level IV status of VSU in a meeting held in the morning of June 20, 2022 following the validation visit to selected research centers and key offices of the university.

As of April 2022, a total of 66 out of 80 undergraduate and graduate courses of VSU or 97% of degree programs have been subjected to AACCUP accreditation across the VSU system. 16 of these programs have been granted Level IV status, 12 for Level III, 19 for Level II, 30 for Level I while 12 programs are new curricular offerings that need revision before it becomes eligible for program accreditation.

VSU was also named by AACCUP as the 2021 top performing institution in the whole country for obtaining the most number of Level IV accredited courses in both graduate and undergraduate levels.

#GoingGlobal: VSU now listed in 2023 World University Rankings

The Visayas State University makes a debut at the prestigious World University Rankings 2023 joining 9 other Philippine universities that were rated and analyzed by the Times Higher Education (THE).

VSU was given a "Reporter" status along with five other Philippine universities that were included in the list. This means that the university provided data but did not meet the eligibility criteria of the THE to receive a global rank.

This special status further indicates that they are active participants in the rankings process, even though they have not been ranked this year.

The 2023 edition of the World University Rankings is the most diverse and largest ranking published by the Times Higher Education with 1,799 universities participating from across 104 countries and regions around the world.

17th

TOP PH UNIVERSITY IN WEB RANKINGS

WEBOMETRICS
January 2022

VSU climbs to 17th spot, a new all-time high in its Webometrics ranking

Visayas State University starts the year strong as it lands an all-time high of 17th place in the January 2022 edition of the Webometrics ranking of Philippine universities.

Setting a new record, this is now VSU's highest rank to date after taking 18th spot in the January 2019 edition while also sliding down one notch lower last year in the July 2021 edition.

This progress is mainly attributed to the number of citations attributed to top researchers and scientists of VSU for the past year plus the increase in web content brought about by continued publication of news and feature stories in the VSU website.

With its current standing, VSU is the lone university in Eastern Visayas to enter the top 50 list. However, Samar State University (SSU), Eastern Visayas State University (EVSU) and Leyte Normal University (LNU) made it to the top 100 cut for this edition.

#GoingGlobal: VSU makes a debut in the World Impact Rankings 2022

Viscans, we made it!

VSU was ranked 800-1000 globally for its first appearance in the THE Impact Rankings while placing 8th overall among Philippine higher education institutions (HEIs).

This is our first ever inclusion in the global ranking of universities based on the Sustainable Development Goals (SDGs).

In a press release issued by the Commission on Higher Education (CHED), VSU scored the highest in the area of Quality Education (SDG 4) ranking 2nd among Philippine HEIs.

VSU also obtained rank 3 in the areas of No Poverty (SDG 1) and Gender Equality (SDG 5), rank 8 in Affordable and Clean Energy (SDG 7), and finally rank 10 in the areas of Good Health and Wellbeing (SDG 3) including Global Partnerships (SDG 17).

For the first time, VSU breaks into the magic 10 circle of the Webometrics Ranking of World Universities placing 8th among the 366 public and private institutions in the country that were rated in the July 2022 edition of this international ranking system.

The university broke its previous performance by climbing 9 steps higher from its most recent ranking of 17th place released 6 months ago.

This monumental leap is attributed to the increased online visibility of VSU via the impact of web contents it generated from January to July this year.

In the 2022 findings of the University Performance Metrics (UPM), the Visayas State University retains its 4 Stars Research University status and remains to be the lone Philippine higher education institution (HEI) to be ranked under such classification.

Only 4 universities from the Philippines participated in the UPM assessment with VSU as the only Philippine school rated in the research university classification ranking 15th among the 27 schools under this cluster.

The Alper-Dodger (AD) Scientific Index rated VSU as the 15th top university in the Philippines for its January 29, 2022 edition.

The AD Scientific Index is a ranking and analysis system based on the scientific performance and the added value of the scientific productivity of individual scientists.

Here in VSU, Dr. Monina M. Escalada, Professor Emeritus of the Department of Development Communication (DDC), was rated as the top-cited scientist of the university with her most cited paper about the use of communication media in changing rice farmers' pest management practices in Vietnam.

Edgardo Tulin is new President of PH's biggest accrediting agency AACCUP

VSU President Edgardo E. Tulin is now set to take on another national leadership role as he was unanimously elected as President and Chairman of the country's biggest accreditation body for state universities and colleges.

In a virtual General Assembly of the Board of Trustees of the Accrediting Agency of Chartered Colleges and Universities in the Philippines (AACCUP) held on April 9, 2022, Dr. Tulin was overwhelmingly chosen to be the next prime mover of the 35-year old organization after serving as Board Member for nearly two years.

He succeeds Dr. Myrna Q. Mallari, the 5th President of the Tarlac State University (TSU) whose term ended on March 31, 2022 after serving her university for eight straight years.

Grad School Dean is first #ProudViscan to get alumni distinction from UP system

For her works in poverty alleviation and human development, Dr. Anabella Bautista Tulin sets history by becoming the very first Viscan to be accorded with a Distinguished Alumni Award by the University of the Philippines Alumni Association—the official umbrella organization of all UP alumni and alumni chapters all over the world.

Dr. Tulin is currently the Dean of the VSU Graduate School with the rank of University Professor, the highest professional rank given to an employee of a state university.

Dr. Tulin is now close to a full circle as she was previously conferred with the Distinguished Alumnus Award in Research and Extension by the College of Agriculture Alumni Association in 2013 and the Outstanding Alumnus Award of the UPLB in 2018.

CME Dean is part of elite circle of CHED Technical Panel for Economics

Dr. Moises Neil V. Sereño, the Dean of the College of Management and Economics (CME), joins the seven-member team of the Technical Panel for Economics of the Commission on Higher Education (CHED).

Chaired by no less than the Chancellor of the University of the Philippines Los Baños (UPLB) Dr. Jose V. Camacho, Jr., this new set of technical panel will serve as CHED's advisory and recommendatory body in the field of economics who will serve for the next four years.

Dean Sereño is currently an Associate Professor of the VSU Department of Economics. He earned his master's degree in International Development Program (IDP) at the International University of Japan in 2009 and finished his doctorate degree in economics at the University of Göttingen in 2014.

VSU Integrated Media Head is elected President of national Devcom organization

Dr. Ulderico B. Alviola, the Head of the University Integrated Media Center (UIMC), was elected as National President of the Association of Development Communication Educators and Practitioners (ADCEP) Philippines.

Now with more than 100 members across 27 schools offering Devcom in the country, ADCEP Philippines was mainly organized to expound on the praxis of development communication by sharing and discussing about the narratives, trends, challenges and the future of the field in the local, national and global contexts.

Dr. Alviola was overwhelmingly elected last year in a virtual General Assembly held on December 4, 2021 attended by almost 100 duly registered members of the organization.

CHED CHAIRMAN'S A W A R D

"HIGAYON"

DIRECTED BY: JOHN PAUL CORTON
PRODUCED BY: LORYS PLAZA

VSU Devcom graduating student wins big in CineIskool Film Fest

A #ProudViscan took home two major awards in a national student film festival jointly presented by the Commission on Higher Education (CHED) and the Film Development Council of the Philippines (FDCP).

Mr. John Paul C. Corton, a graduating development communication student from the Visayas State University garnered the CHED Chairman's Award and the Best Screenplay that came with a certificate and a total cash prize of Php40,000.00.

While Mr. Corton fell short of winning the festival's top prize as Best Short Film, his entry was the only one to snatch two major awards among the 10 finalists who were shortlisted from hundreds of applicants for this film production grant.

The Devcom graduating student received these awards in a live ceremony held on June 22, 2022 at the Cineplex 1 of the Gateway Mall in Cubao, Quezon City.

VSU Tolosa records its in fisheries licensure

Mr. Erlan F. Hernit becomes the first graduate of the Bachelor of Science in Fisheries (BSF) program here in the Visayas State University Tolosa to make it to the roll of top 10 highest rated examinees.

He landed 4th place in the 2022 Licensure Examination for Fisheries Professionals (LEFP) among the 716 total number of successful takers coming from 95 universities and colleges offering the BSF program all over the Philippines.

With this achievement, Erlan proves that juggling between work and review is never a hindrance in making it to the top.

It took him five long years to finally get the courage to take the fisheries board as he had difficulty in securing a permanent position in the government without obtaining a professional license.

BEST PRODUCTION DESIGN
BEST IN CLIMATE ADVOCACY
BEST IN CINEMATOGRAPHY

Viridescent, a #ProudViscan short film wins grand prize in Klima Film Festival

first topnotcher exam

This 27-year-old board topnotcher graduated Cum Laude in June 2017.

Erlan hails from Alangalang, Leyte and is the third son among 5 siblings of Mr. Romeo S. Hernit and Mrs. Rowena F. Hernit. His father is a local fisherman who also inspired him to pursue a fisheries degree at VSU Tolosa.

Out of the 1,966 takers of the October 2022 board exam, VSU Tolosa produced 28 new licensed fisheries professionals for this year.

VSU Tolosa obtained an institutional passing of 42.31% for the first time takers while retakers obtained an institutional passing rate of 38.46%. Overall, VSU Tolosa registered a 40% institutional passing performance which is higher than the national average of 36.42%.

From being first runner up last year to winning the grand prize this year—this is the story of 3 #Proud-Viscans aspiring filmmakers who continued their passion by competing again in the Klima Film Festival.

MCDP Films with their entry entitled “Viridescent” wins big in the second edition of the Klima Film Festival (KFF) organized by the Climate Change Commission (CCC) and the Oscar M. Lopez Center (OLM Center).

In an awarding ceremony held on March 11 via Facebook live, Viridescent won the biggest awards in the said competition including Best Film, Best in Climate Advocacy, Best Production Design, and Best in Cinematography that came with an accumulated prize of Php115,000.00 cash.

On top of this was a number of nominations the film received in many other categories including Best Performance for Leila Amore Galvez as Dr. Leila Montesclaros, Best Director, Best Screenplay, and the Gender Responsive Award.

Visayas State University & Tottori University VIRTUAL SIGNING OF MEMORANDUM OF AGREEMENT

#GoingGlobal: Japan's Tottori University signs agreement with VSU

The Visayas State University finds a new partner with another Japanese institution, the Tottori University (TU).

This is the third Japanese university to have signed a memorandum of agreement (MOA) with VSU, with Hiroshima University being the first and longest partner since 2011, followed by Nagoya University in 2021 who proposed to establish their second Philippine station here inside the flagship campus at Baybay City, Leyte.

VSU has intensified its internationalization efforts by partnering with more foreign universities as a way of improving student and faculty mobility overseas.

The virtual signing of the MOA between TU and VSU happened on June 15, 2022 which was featured in a local Japanese television newscast.

#GoingGlobal: CVM welcomes first set of visiting professors from Croatia

The College of Veterinary Medicine (CVM) welcomed three visiting professors from the University of Zagreb in Croatia last month. This marks the first face-to-face international engagement of the college more than two years after the community quarantine brought by the COVID-19 pandemic.

Croatian professors Dr. Danijela Horvatek Tomič, Dr. Željko Gottstein and Dr. Liča Lozica were officially welcomed to VSU on April 4, 2022 for a three-day lecture series that was attended by CVM faculty, staff and selected students.

All three of them are recipients of the Erasmus+ Higher Education Mobility Program that provides faculty learning mobility opportunities to encourage professional growth and boost internationalization initiatives among its partner universities.

Together, the visiting professors covered a total of six topics on their 3-day lecture visit that tackled immunosuppressive viral diseases, respiratory viral diseases, use of autogenous vaccines, poultry food-borne zoonoses, an actual demonstration in avian necropsy, including handling and sampling for laboratory diagnostics.

Prominent Cebu businessmen tour VSU for agri-enterprise exposure

Benedict Y. Que, the President and Chief Executive Officer (CEO) of Golden Prince Hotel and Suites and the Golden Valley Hotel drops a visit to the Visayas State University for an agri-enterprise exposure on April 7 and 8, 2022.

In his first visit to VSU, Mr. Que was joined by GoNegosyo mentor Rey E. Calooy who is considered as the Tiger Entrepreneur of the South because of his rags to riches story after making it big in the competitive world of local retail and micro-packing industries.

Mr. Calooy, on the other hand, is not new to VSU as he has been invited twice by the College of Management and Economics (CME) as speaker in business and leadership summits for agribusiness and economics students.

Together, Mr. Que and Mr. Calooy now co-manages an agricultural business startup called the Philippine Inno-Ventures Agriculture Cooperative (PIVAC) that mainly aims to strengthen the local cacao industry in Central and Eastern Visayas regions.

#ProudViscan: Former Student Regent is top 6 in veterinary boards

As if graduating Cum Laude in a six-year grueling veterinary program is not enough, she was also last year's recipient of the prestigious 2021 Leadership Award for being the first Federation President of a newly reconstituted University Supreme Student Council (USSC).

Immediately after graduation, she invested her time and efforts to prepare and focus for the boards that earned her the 6th highest spot in the March 2022 Veterinarian Licensure Examination (VLE).

Dr. Cortez hails from Ormoc City and is the lone daughter of Mr. Santos S. Cortez Jr., a professional mechanical engineer of the Energy Development Corporation (EDC) and Mrs. Melissa L. Cortez, a senior high school teacher in Ormoc City Senior High School (OCSHS). The board topper has one younger brother.

VSU obtained an institutional passing of 69.23% for the first time takers with additional 5 passers from the board exam retakers. Overall institutional performance for this year is at 46.67%.

INSTRUCTION

ACCREDITATION

VSU being awarded by AACCCUP for having the highest number of Level IV re-accredited programs in 2021.

The award was given during the AACCCUP's 35th Annual National Virtual Conference on March 11-13, 2022.

A photograph of two students, a man and a woman, in a greenhouse setting. They are both wearing white lab coats and white gloves. The man is on the left, leaning over and using a red pipette to transfer liquid into a small container. The woman is on the right, holding a glass flask containing a blue liquid. They are surrounded by various plants in pots, some of which are covered with white plastic bags. The background shows the structure of the greenhouse with its metal frame and translucent panels.

PHILROOTCROPS

Philippine Root Crop Research and Training Center

Ongoing Projects

- Preserved DA-BAR Annual project review
- Matling Industrial & Commercial Corporation (MICC) based at Malabang, Lanao de Sur, the biggest starch mill in the Philippines selected high yielding and high starch content of phytoplasma resistant cassava varieties after 1 year field evaluation in its production area.
- Cassava Phytoplasma Disease resistant varieties
- Production of puffed & chippy products.
- Delivery of the extruder to FEA cooperator of Salcedo, Eastern Samar.
- Online Training for the cooperators on the manual operation of the extruder.
- Submitted Utility Model of the 2-in-1 Extruder Machine for IP protection
- Fabrication of 2-in-1 extruder for Luzon area to be delivered
- Develop accessory devices to facilitate the processing of the products to be produced.

Completed Projects

- Red Spider Mite Resistant Varieties
- Biological Control of Red Spider Mite
- No RSM outbreak happened since mid 90s after the implementation of biological control program of more than 2,000 hectares
- Amblyseius longispinosus as biological control agents against RSM became established and regulated the RSM population at a very low level and co-exist with the Amblyseius longispinosus

List of matured technologies developed and technologies for dissemination

- Rootcrops Varieties released and registered at NSIC
- Resistant sweetpotato varieties to scab
- Resistant cassava varieties to phytoplasma
- Sex weevil pheromone for sweetpotato
- Shade tolerant sweetpotato varieties for cassava intercropping
- Cassava varieties with high dry matter and starch content
- High yielding, pest resistant and early maturing cassava and sweetpotato varieties
- Optimized Vacuum Frying Machine
- Cassava Cookies
- Cassava Yuca Puffs
- Vacuum fried SP
- Extruded rice and rice-based products will be developed using locally fabricated portable extruders
- Vacuum fried oyster mushrooms, on the other hand, will also be developed using the low-cost portable vacuum frying system.

Renewable Energy Research Center

Hydraulic Ram Pump Development and Automation for Small Irrigation System in Upland Barangays

Solar-Based Evaporative Cooling System for Intermediate Field Storage of Fruits and Vegetables

Bioenergy Generation from Agricultural Wastes, Seaweeds, Algae, Cellulosic Materials, and Plant Oils for Climate Change Mitigation and Food Security

Socioeconomic Impact of Solar Home System on Household Beneficiaries in Leyte and Southern Leyte (No additional funding requested)

Renewable Energy Research Center

403 persons trained in different coconut technologies
6 trainings conducted food processing technologies, embryo tissue culture & others
over 20 persons assisted online 14 IEC materials developed
37 groups served
38 technical/expert services
3 extension projects
1 Regional level award received
5 partnerships with various agencies/stakeholders

100% beneficiaries rated the trainings as satisfactory or better
6 articles published
11,322 coconut seedlings distributed/sold
1,655 seednuts distributed/sold
1,612.5 kg Makapuno meat sold
130 pc makapuno seedlings/plantlets sold
14 IEC materials developed

A photograph of two young women in a library. The woman on the left, with brown hair, is looking down at a book. The woman on the right, with blonde hair, is smiling and holding a red book. They are standing in front of bookshelves filled with books. A semi-transparent white box with rounded corners is overlaid on the image, containing the word 'PUBLICATIONS' and the university's name at the bottom.
