DR. LEMUEL S. PRECIADOS
Department Head
Department of Economics
Visayas State University
Visca, Baybay City, Leyte

Dear Dr. Preciados,

I am writing to express my continued strong interest in the Part-time Instructor position at VSU - Department of Economics. Six months ago, I applied for this role with hope and enthusiasm. Today, I return with enhanced experience and qualifications, and an unwavering commitment to contributing to the department that shaped my academic journey.

Teaching has always been my career goal, driven by my passion for making complex economic concepts accessible and engaging for students. Since my previous application, I have gained substantial experience that directly aligns with the position's requirements while building upon my strong academic foundation (GWA of 1.454) and expertise in mathematics and econometrics.

Most significantly, I delivered a 3-hour public training session to over 40 researchers, instructors, and students nationwide through VISERDAC, bringing my total trained field researchers to over 500. My role as Science Research Assistant at the National Abaca Research Center further developed my applied statistical and econometrics skills, while my presentations at major academic conferences, including the Philippine Economic Society Annual Meeting, demonstrate my commitment to bridging academic knowledge with real-world applications. I have also pursued professional development in modern pedagogy, preparing me to teach effectively in the age of AI.

My four years of volunteer leadership with Ekonsepto or Rethinking Economics Philippines have deepened my commitment to promoting economic literacy and pluralist approaches to economics education. This experience, combined with my proficiency in R, Stata, and SPSS, positions me well to make economics both academically rigorous and socially relevant for students.

As a proud alumnus of this department, I am motivated to inspire the next generation of economists to see their field as a powerful tool for understanding and improving our world. I would welcome the opportunity to discuss how my qualifications can contribute to the department's continued excellence in economics education and economic development research.

Thank you for your consideration, and I look forward to the possibility of joining the faculty that once nurtured my own academic growth.

Sincerely,

NATHANIEL C. NOYA
