**HONEY SOFIA V. COLIS**

OIC Director

ODHRM

VSU, Baybay City, Leyte

**Dear Maam Colis:**

I am reaching out to you regarding the posting for the Science Research Assistant position at Visayas State University. I have great interest in this position and would appreciate your consideration as a candidate for the role.

I am currently working as a germplasm manager for the PhilRootcrops sweetpotato collection here at the Visayas State University. I firmly believe that a germplasm is the backbone for crop improvement, and as a Plant Breeding Major, and a licensed Agriculturist, I have devoted years learning about the science and practices of germplasm management. I am confident that my background can help your institution in its goal to generate and promote rootcrop improvements and innovations.

I appreciate your time in reviewing this letter and I am hoping to hear from you regarding the next steps in the hiring process. If you have any questions pertaining to my application, you may contact me at [bahandijohn17@gmail.com](mailto:bahandijohn17@gmail.com) and 09983372610.

Sincerely,

  
John Bahandi
