**Dr. Manuel G. Gacutan, Jr.**

Department Head

Animal Science Department

Visayas State University, Main-Campus

Dear Sir;

I am writing to apply for the position of Farm Worker II at the Animal Science Department. I recently graduated with a degree in Bachelor of Science in Agriculture, major in Horticulture, which has provided me with strong knowledge in crop production, farm operations, and sustainable agricultural practices.

While my previous work experience has been as a food server, it has helped me develop important transferable skills such as discipline, time management, teamwork, and the ability to follow instructions effectively. Combined with my academic training in agriculture, I am confident that I can quickly adapt to farm operations involving animal science.

I am highly motivated to build my career in agriculture and farm work, and I am eager to learn and apply new techniques that will contribute to the department's goals. I believe that my educational background, work ethic, and willingness to take on responsibilities make me a strong candidate for this position.

I would greatly appreciate the opportunity to discuss how my qualifications can contribute to your team. Thank you for considering my application.

Sincerely,

**DANILO H. GIRAY**
