Dr. Lilian B. Nuñez
Head, Barangay Integrated Development Approach for Nutrition Improvement
Visayas State University
Visca, Baybay City, Leyte

Dear Dr. Nuñez,

I am writing to express my keen interest in the position of Science Research Specialist for the Barangay Integrated Development Approach for Nutrition Improvement (BIDANI) program. As a licensed agriculturist with a Bachelor of Science in Agriculture majoring in Animal Science, I bring a strong background in research, field application, and community-focused development.

During my academic career, I not only participated in national scientific meetings but also had the privilege of presenting my research paper at the Philippines Society of Animal Science conference. My study, which focused on sustainable agriculture and farm animal genetic resources, underscores my commitment to evidence-based solutions for agricultural and nutritional challenges.

My professional experience has equipped me with practical expertise in sustainable agricultural practices and extension services, emphasizing collaboration with diverse stakeholders to achieve impactful outcomes. These skills align seamlessly with BIDANI's mission to address nutrition improvement at the barangay level through integrated and science-driven approaches.

I am particularly inspired by BIDANI's vision to empower communities through actionable research. I believe my background in both scientific inquiry and community engagement positions me to contribute effectively to this program's goals. My ability to communicate complex scientific concepts to various audiences ensures that research findings can be translated into practical strategies to improve nutrition and agricultural resilience.

I would welcome the opportunity to bring my skills, knowledge, and passion for research and community development to the BIDANI program. I am available for an interview at your earliest convenience and can be reached at 09235853772 or cputan@gmail.com.

Thank you for considering my application. I look forward to the possibility of contributing to the success of the BIDANI program and supporting its vital mission.

Sincerely,

Erik John Putan, L.Agr.
