Thru: **DR. JERRY B. SANGUILLOSA**
Department Head, DPBG

Greetings of Peace and Joy!

I am writing this letter to your good office to formally express my interest in reapplying as a part-time instructor in the Department of Plant Breeding and Genetics, which was posted on the VSU HRIS website. It is indeed a professional and personal growth to reinvent myself and my teaching skills in an academe committed to serving the institution.

I have a strong academic background, relevant teaching experience, and professional qualifications having completed my Bachelor of Science in Agriculture with a major in Plant Breeding at the Visayas State University's main campus in 2016. I also passed the Licensure Examination for Agriculturists (LEA). In 2021, I had the opportunity to teach as a part-time instructor in the Department of Plant Breeding and Genetics-VSU. With the privilege granted by the DOST-SEI Accelerated Science and Technology Human Resource Development Program-National Science Consortium (ASTHRDP-NSC), I had the opportunity in pursuing a graduate study for Master of Science in Horticulture with a focus on Plant Tissue Culture at this university. This experience has made me realize the power of education in both teaching and research.

Furthermore, to provide a broader profile, I have attached my curriculum vitae (CV) for your perusal and you may contact me through this mobile number 09238701171 for further important communication. Thank you very much and I am hoping forward to hearing from you.

Sincerely yours,

BENJIE ASOY MAGALLANO
applicant
