Dr. Manuel D. Gacutan Jr.
Head, Department of Animal Science
Visayas State University
Baybay City, Leyte, Philippines

Dear Dr. Gacutan,

I am writing to express my interest in the part-time instructor position at the Department of Animal Science at Visayas State University. With a close background in animal science education and practical experience in both academic and agricultural settings, I am enthusiastic about the opportunity to contribute to the academic success and development of your students.

I hold a Bachelor in Animal Science from Visayas State University, and I am currently pursuing a Master of Animal Science at the same institution. My academic journey has equipped me with extensive knowledge and practical skills in animal science, which I have applied in various professional roles.

My experience as a part-time instructor at Visayas State University Integrated High School, where I taught Agriculture 1 and Agriculture 3, has honed my teaching skills and deepened my commitment to student success. I developed and implemented lesson plans that engaged students and facilitated their understanding of agricultural principles.

Additionally, my role as a Community Organizer at the Agricultural Training Institute-Regional Training Center VIII involved coordinating community projects and delivering training sessions, further enhancing my ability to communicate complex information effectively. My time as a Field Enumerator for LaForeT at the College of Forestry and Environmental Science provided me with valuable data collection and analytical skills, which are essential for both teaching and research.

Furthermore, my experience as a Data Encoder at both the Department of Animal Science and the College of Veterinary Medicine at Visayas State University has refined my attention to detail and data management abilities. These skills are crucial for maintaining accurate records and supporting research initiatives within the department.

I am passionate about the field of animal science and am dedicated to fostering a learning environment that encourages curiosity and critical thinking. I am particularly drawn to this position because of my desire to contribute to the academic and professional growth of students in our community.

I am eager to bring my expertise and enthusiasm to the Department of Animal Science at Visayas State University. I look forward to the opportunity to discuss how my background, skills, and passion for teaching align with the goals of your department. Thank you for considering my application.

Sincerely,

Ruel Reyes Balana
